ИНСТРУКЦИИ ПО ВЫПОЛНЕНИЮ ЗАДАНИЙ УСТНОЙ ЧАСТИ ОГЭ ПО АНГЛИЙСКОМУ ЯЗЫКУ

В задании 34 необходимо прочитать вслух небольшой текст научно-популярного характера. На экзамене на подготовку отводится 1,5 минуты. На чтение всего текста вслух — 2 минуты. Максимум — 2 балла.

Памятка по выполнению задания 34

1. При подготовке к этому заданию начните с просмотра текста, постарайтесь понять содержание текста и его основную мысль.
2. Особое внимание обращайте на интонацию, логическое ударение и паузы между смысловыми группами. Именно это делает чтение осмысленным. Выделить смысловые группы помогают запятые, но при этом нужно помнить, что в предложении без знаков препинания также могут быть отдельные смысловые группы.
3. Отметьте для себя незнакомые слова или те, в произношении которых вы сомневаетесь. Попробуйте прочитать их по правилам и проверьте их транскрипцию по словарю.
4. Прочитайте весь текст шепотом, чтобы проверить себя.
5. Не «глотайте» окончания, не вставляйте слов, которых нет в тексте (артикли, предлоги). При чтении перед экзаменатором не торопитесь, однако помните, что весь текст нужно прочитать за 2 минуты.

В задании 35 предлагается ответить на шесть вопросов телефонного опроса, который вы услышите в аудиозаписи. Время для ответа на каждый вопрос составляет 40 секунд. Максимум — 6 баллов.

Памятка по выполнению задания 35

1. Внимательно прослушайте вопрос и постарайтесь понять его содержание. Если что-то в вопросе осталось непонятным, постарайтесь догадаться и начинайте сразу отвечать. Лучше ответить на вопрос так, как он вами понят, чем не ответить вообще.
2. Помните, что для ответа на вопрос у вас есть 40 секунд и это время превышать нельзя.
3. Отвечайте на вопросы конкретно, полными предложениями, говорите громко, четко и не слишком быстро.
4. Обращайте внимание на грамматическое оформление своих ответов. Если вы поняли, что сделали ошибку, можно повторно сформулировать свой ответ, помня о лимите времени. В этом случае засчитывается последняя фраза.

В задании 36 предлагается составить монолог на заданную тему. На экзамене на подготовку отводится 1,5 минуты, а на ответ — 2 минуты. Максимум — 7 баллов.

Памятка по выполнению задания 36

1. Внимательно прочитайте задание и предложенный план ответа.
2. По каждому пункту плана нужно сформулировать 3–4 предложения.
3. Обращайте внимание на интонацию и логическое ударение. Один из критериев оценивания данного задания — языковое оформление текста, т.е. правильное произношение и правильная интонация.
4. Словарный запас также важен при оценке данного задания. Активно используйте средства логической связи.
5. Обращайте внимание на грамматическое оформление высказывания. Если вы поняли, что сделали ошибку, можно исправить ее, повторно сформулировав фразу, помня при этом о лимите времени.
6. При ответе на вопрос помните, что на все высказывание дается 2 минуты, а его объем должен составлять 10–12 фраз.

Всего для выполнения заданий устной части одному экзаменуемому отводится 15 минут (включая время на подготовку). Максимум — 15 баллов за весь раздел.

К книге прилагается компакт-диск, на котором вы найдете аудиозаписи ответов на все задания, озвученные носителем языка, а также цветные фото, использованные в заданиях.

Критерии оценивания приведены в приложении 1 (см. с. 56).

ЖЕЛАЕМ УСПЕХОВ!

TEST 1

34

Task 34. You are going to read the text aloud. You have 1.5 minutes to read the text silently, and then be ready to read it aloud. Remember that you will not have more than 2 minutes for reading aloud.

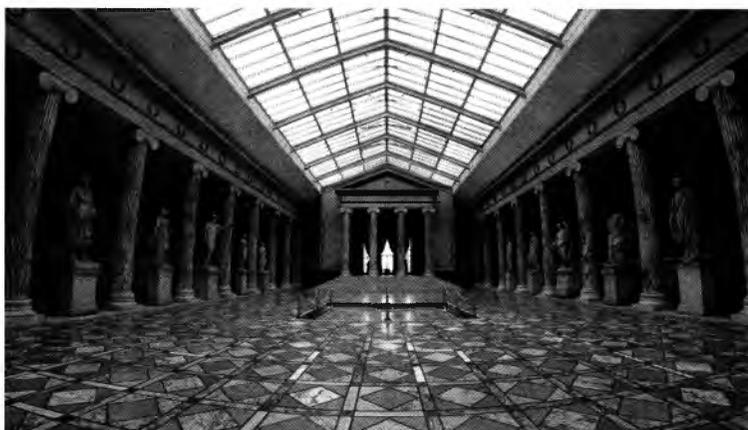

William Shakespeare was born in Stratford-on-Avon and was Britain's most talented playwright. People now come to his hometown to see his plays performed by the Royal Shakespeare Company and to see where he was buried. It is also possible to take a tour of his modest family home. In the 1590s, Shakespeare worked in London and he became so popular that the Globe Theatre was built so that his plays could be continuously performed. Today, the Globe Theatre has been reconstructed and visitors can now enjoy Shakespeare plays the way people saw them over 400 years ago.

Electronic assistant: Hello! It's the electronic assistant of the new health centre "Care". We kindly ask you to take part in our survey. We need to find out how people feel about having a healthy lifestyle. Please, answer the six questions. The survey is anonymous — you don't have to give your name. So, let's get started.

1. **Electronic assistant:** How do you understand a "healthy lifestyle"?
Student: *I think that having a healthy lifestyle means exercising a lot. I am also sure that someone needs to eat fruit and vegetables as well. (Pause 40 seconds)*
2. **Electronic assistant:** Why is a healthy lifestyle more popular nowadays?
Student: *Healthy lifestyle is more popular nowadays because people are more educated about what is and is not healthy. They know that they need exercise, and people are also able to make better decisions about what they eat because food products now have lists of ingredients. This means people can now avoid unhealthy products. (Pause 40 seconds)*
3. **Electronic assistant:** Do you have a healthy lifestyle or not? Why?
Student: *I believe I have a healthy lifestyle. I go to the gym twice a week, and I eat vegetables at every meal. (Pause 40 seconds)*

6. **Electronic assistant:** Do you try to eat breakfast, lunch and dinner at a definite time every day?
Student: *I am afraid that I don't eat at a definite time every day. I eat breakfast when I wake up, and that time often changes. I usually have lunch around midday, but I only eat dinner if I am hungry. (Pause 40 seconds)*

TEST 2

34

Task 34. You are going to read the text aloud. You have 1.5 minutes to read the text silently, and then be ready to read it aloud. Remember that you will not have more than 2 minutes for reading aloud.

One theory continues that over 3500 years ago people transported huge stones from Wales to build Stonehenge on Salisbury Plain. It would have been an amazing accomplishment, with people carrying the stones over 200 miles.

It is believed that Stonehenge was built by people who worshipped the sun. In the summer the sun rises over a particular stone and shines directly onto the centre altar.

For centuries people came to explore Stonehenge and to try to understand its mysteries. Today, however, it is not allowed to come close to the stones and police guard the area to prevent tourists from getting too close.

Sample answer

Electronic assistant: Hello! It's the electronic assistant of the new fast-food restaurant "Burger". We kindly ask you to take part in our survey. We need to find out how people feel about fast food. Please, answer the six questions. The survey is anonymous — you don't have to give your name. So, let's get started.

1. **Electronic assistant:** How would you define "fast food"?
Student: *I think that fast food is any food that you can buy that is made for you to eat in five minutes or less. The ingredients are prepared in advance and are usually of a poor quality. (Pause 40 seconds)*
2. **Electronic assistant:** Why is fast food so popular these days?
Student: *I think fast food is popular because people are very busy and they want something that they can eat quickly. If someone has to get to a class or return to work, they don't always have much time to sit down and have a proper meal. (Pause 40 seconds)*
3. **Electronic assistant:** How do you feel about fast food?
Student: *Well, I actually like fast food. I think it is tasty, and I also like the fact that it is very cheap. (Pause 40 seconds)*
4. **Electronic assistant:** How often do you eat at fast-food restaurants?

5. **Electronic assistant:** Can you think of any healthy fast food? What is it?
Student: *In some Italian fast-food places you can buy salads. I suppose they are healthy because they always contain a number of vegetables. (Pause 40 seconds)*
6. **Electronic assistant:** Do you think that fast food is the main cause of obesity or not? Why?
Student: *I don't think it is the main cause of obesity. If people eat a lot of fast food, but exercise more, they won't become obese. So, not doing exercise causes obesity, not fast food. (Pause 40 seconds)*

Task 34. You are going to read the text aloud. You have 1.5 minutes to read the text silently, and then be ready to read it aloud. Remember that you will not have more than 2 minutes for reading aloud.

There are many December traditions in the United Kingdom. One of them is annual pantomimes. These are plays for children, and are based on popular fairy tales, such as Cinderella or Aladdin. They have songs, dances, and are usually funny.

Another tradition is sending Christmas cards. People send these cards with holiday greetings to their friends and family. Some stores even sell them and promise to donate the money they earn from them to charity.

Christmas is also extremely popular. Children wake up on 25 December and look for presents under a tree or in stockings over the fireplace or on their beds. Later families enjoy a large traditional Christmas dinner, which includes turkey, roast potatoes, and pudding for desert.

6. **Electronic assistant:** Do you choose a film for the plot or the actors? Why?
Student: *I typically choose a film for the plot. I mean, there are so many good actors nowadays that the plot is what makes a film interesting. You can have the best actors, but if the story bores you, you won't like the film. (Pause 40 seconds)*

Halloween is 31 October and is a holiday in which people celebrate the return of those dead souls who wish to visit places where they used to live. People dress up as witches, ghosts, goblins, and other scary creatures and go to parties or clubs. Children often go door-to-door and ask for candy. They ring the doorbell of their neighbours and ask, “trick or treat?” If someone gives the children sweets, they continue on to the next house to get more. However, if someone gives the children nothing, they play a “trick” on the person for not giving them what they wanted. This can be something like squirting the person in the face with water or ringing the person’s doorbell repeatedly and running away.

In the past British rulers believed that God had chosen them to lead the country of England. In the 1600s, King Charles I believed that he had absolute power. The jealous English Parliament disagreed. They followed a man called Oliver Cromwell, and declared war on the king and murdered him in 1649. Shortly after, Cromwell became a dictator.

However, for 11 years England enjoyed its only years as a republic. However, after Cromwell's death, Parliament invited the murdered king's son to return to England. Once again there was a king in England and to this day the British people still consider themselves subjects of the crown even though they live under a powerful Parliament.

Charles Dickens was the most popular English novelist in the nineteenth century. When he was twelve years old, Dickens worked in a factory. That is why his novels often tell stories about young people who are very poor and live in terrible conditions.

Most of the writer's books first appeared as serials in magazines. He was paid by the word, which is why his books often have very long descriptive passages. Each month he wrote the next chapter for his story, and this meant that he could change the plot of his book based on whether his readers liked his story or not.

For example, Golf was first played in Scotland in the fifteenth century, and the golf club in Saint Andrews is still viewed as the leading authority on golf in the world.

The game of cricket was also first played in England in the sixteenth century, and football, rugby, and hockey were all created in England in the nineteenth century. In the UK anyone over the age of 18 can vote in a general election. The country is divided into regions, and people vote for candidates in the areas where they live. The person who wins becomes an MP in the House of Commons. Due to the fact that the winner only needs to have one more vote than his or her opponent, this is called the first past the post system.

The electoral process has ensured that two parties dominate the political landscape of the UK. The left-wing Labour Party and the right-wing Conservative party hold the majority of MP seats. There is a centrist party, the Liberal Democrats, who believe that proportional representation is better, but that is because their candidates usually come in second.

The current Queen opens Parliament, welcomes foreign Heads of State, holds state banquets in her palace, and welcomes the Prime Minister every time a new one is elected. Queen Elizabeth II has been the UK's ruling monarch since 1952. She receives over 76 million pounds a year from the state. While many see this as an unnecessary expense, others believe that the Queen brings tourists to England and is worth keeping as a symbol of the country.

London taxi drivers are known for being the best in the world. While their colleagues in other major cities rely on their smartphones to navigate, London taxi drivers have to know every street by heart. To get their license, they have to pass a number of difficult tests about London's streets, landmarks, and points of interest. These tests are known as The Knowledge, and every answer must be correct. Nowadays, London taxi drivers are upset that mobile applications allow for non-licensed taxi drivers to pick up passengers. They believe that it is unfair that these new cab drivers never had to pass a single test and accept low fares. It makes it very difficult for licensed drivers to compete.

In the United States just over forty percent of high school graduates go on to university. Although there are public and private universities, both are expensive for most. Some students are able to get scholarships, but others are forced to either work part-time or to take large student loans from banks.

A typical undergraduate degree takes four years in America. It is possible to study at a community college and receive an associate's degree in two years, but it has little value.

For their first two years undergraduate students are required to take English, science, math and history, regardless of their degree choice. When they enter their third year, they choose a major in a subject such as history, biology, or marketing.

One of the biggest holidays in the United States is Independence Day. Every year on the Fourth of July people meet with their friends and family to celebrate the anniversary of their nation's independence from the British. People go on picnics, have barbecues, and watch fireworks in the evening.

The holiday began 4 July 1776, when members from each of the thirteen states signed the Declaration of Independence. It was essentially a declaration of war against England. George Washington led the American army and succeeded in defeating the British at Yorktown in 1781. Not long after his victory, England surrendered and the thirteen colonies became free from British rule.

In the United States people use the word “school” to refer to everything from kindergarten to university. All children are required by law to attend school until they are eighteen years old. However, they have a choice to go to a private school or a public school. Only 11 percent of parents choose to send their children to private schools, as fees are often very high. However, they typically have higher academic standards and some offer religious teaching. It is estimated that over fifty million children attend class for the first time every year. The first year is called kindergarten, followed by elementary school, then middle school, and then finally high school. Past kindergarten, students study for twelve years. The school year begins in August and ends in June.

The United States has some of the most unique and beautiful natural places in the world. Although Theodore Roosevelt was the first President to champion the idea for the country to preserve its beauty by making national parks, the first national park was actually established in 1872, twenty years before he took office.

Yellowstone Park was the country's first national park, and its territory spreads over 3,472 miles. The park stretches across three states and within its boundaries there are waterfalls, canyons, and hot springs.

There are also many animals protected on the country's thirty-eight national parks. Bears, wolves, eagles, and elk all pass through America's large parks. At Yellowstone, people can hike or camp in the forest.

In 1848 gold was discovered in California. Within a year about 100,000 people came to the goldmines to look for the precious metal. Thousands of these gold diggers soon died because of disease and hard working conditions.

This was the beginning of one of America's gold rushes. People from all over the world moved to California in hopes of finding gold. Other gold and silver regions were Nevada and Colorado.

The search for gold gave rise to new towns. Some of them still exist, for example, Aspen in Colorado, which is a famous ski resort now. Others turned into ghost towns after the price of silver fell and people abandoned their houses.

Electronic assistant: That is the end of the survey. Thank you very much for your cooperation.

Task 34. You are going to read the text aloud. You have 1.5 minutes to read the text silently, and then be ready to read it aloud. Remember that you will not have more than 2 minutes for reading aloud.

President Abraham Lincoln held office for only four years. Nevertheless, he is one of the most admired presidents in American history. He ruled the country at the time of the devastating Civil War, in which more than 600,000 soldiers perished. That is more than in any other war in American history before or since. Lincoln is greatly respected for the preservation of the Union of the States in that war.

In 1863, Lincoln gave his most famous speech, in which he stated his commitment to the values of democracy and freedom.

Lincoln died tragically. He was assassinated by the actor John Wilkes Booth, who was a Southerner who could not accept the fact that the North had won the war.

Please, answer the six questions. The survey is anonymous — you don't have to give your name. So, let's get started.

2. **Electronic assistant:** Do you get along well with your family?

3. **Electronic assistant:** Is family more important than friends? What do you think?
Student: *Family is always more important than friends. Friends come and go, but family members will be there for you forever. You are closer to them because you see them almost every day of your life. (Pause 40 seconds)*
4. **Electronic assistant:** What do you and your family like to do together?

6. **Electronic assistant:** Do you help your parents with household chores?
Student: *I try to help my parents with household chores, but I am often very busy with my homework. At the weekends my parents make me do the washing-up, and when we go to our dacha they make me help them clean it. (Pause 40 seconds)*

Electronic assistant: That is the end of the survey. Thank you very much for your cooperation.

6. Secondly, as far as I know, people who do extreme sports usually do them all, as one sport is never enough for them.
7. Thirdly, I should admit that I am afraid to try any extreme sports.
8. To be honest, I am always worried that something could go wrong and that I could die.
9. Last but not least, without any doubt, I am sure that I won't ever try any extreme sport.

11. I think that regular sports are just fine for me.

By 1750, there were thirteen British Colonies in the United States of America. The colonists were displeased with the tax they had to pay Great Britain. Also, they disapproved of the way England governed their colonies. They wished for independence.

It was 4 July 1776, that the Declaration of Independence was signed by the representatives of all the thirteen colonies. This event led to a war with Great Britain, which refused to allow the colonies to be free. After eight years of difficult fighting, America won the revolutionary war under the leadership of George Washington. Later he became the first president of the country.

Please, answer the six questions. The survey is anonymous — you don't have to give your name. So, let's get started.

1. **Electronic assistant:** How many friends do you have?
Student: *I have a lot of friends. Most of the people from my school are my friends. (Pause 40 seconds)*
2. **Electronic assistant:** How many people do you consider your "best friends?" What is your best friend like?
Student: *I believe I have four "best friends". The one I consider my best friend is funny, interesting, and fun to be around. We both have the same hobbies. (Pause 40 seconds)*
3. **Electronic assistant:** Is it easy for you to make friends?
Student: *It isn't very difficult for me to make friends. At first I am a bit shy, but after I meet someone a couple of times, I feel more comfortable and can talk with them more. Then it is not long before we become friends. (Pause 40 seconds)*
4. **Electronic assistant:** Have you ever made friends over the Internet?
Student: *Of course I have made friends over the Internet. It is easy to find people who have the same interests as you. Then, when you do find them, it is easy to organize a meeting and then you become friends rather quickly. (Pause 40 seconds)*

Electronic assistant: That is the end of the survey. Thank you very much for your cooperation.

6. In a library there is always someone to help you.
7. **Moreover**, libraries also have the Internet if you need to use it.
8. **Secondly, without any doubt**, I study better in a library because there are no distractions.

Los Angeles became an American city in 1850 when California joined the United States after the American-Mexican War. Its name means “the city of angels” in Spanish, as originally it was a settlement of Christian missionaries from Spain.

Nowadays the city is an attractive place to live in as it has beautiful beaches, a warm climate, and is next to the Pacific Ocean. However, the inhabitants of the city complain of the high level of air pollution. The population is about 3.5 million people, and almost all of them drive long distances to work causing huge traffic congestion.

Los Angeles is most famous for Hollywood, which is the biggest centre of film production, and for Beverly Hills, which is the fashionable district where celebrities live.

Task 35.

Sample answer

Electronic assistant: Hello! It's the electronic assistant of the educational centre "Study". We kindly ask you to take part in our survey. We need to find out how people feel about taking exams. Please, answer the six questions. The survey is anonymous — you don't have to give your name. So, let's get started.

1. **Electronic assistant:** When was the last time you took an important exam?
Student: *The last important exam I took was a week ago I took my maths exam. It was very difficult. (Pause 40 seconds)*
2. **Electronic assistant:** How did you feel before and after it?
Student: *Before the exam I was very nervous, and after it I became worried. The test was really hard and I don't think I did very well. I should have studied more. (Pause 40 seconds)*
3. **Electronic assistant:** Should exams be so important that they can determine a student's future?
Student: *Exams shouldn't determine a student's future. A lot of students become very nervous and make mistakes on exams because they can't concentrate under pressure. There needs to be another way for students to prove themselves. (Pause 40 seconds)*
4. **Electronic assistant:** Do you think that exams motivate students to study harder?
Student: *I think that exams motivate students to study harder. If they didn't have exams, students wouldn't look at their class notes again or do any home-reading tasks. Students need a goal to work towards. (Pause 40 seconds)*
5. **Electronic assistant:** Do you prefer oral or written exams? Why?
Student: *I always prefer oral exams. You can always speak faster than you write. This means that you can include everything you want to say about a particular topic. When you take a written exam you have to worry about the structure of an essay, word count, and word repetition. You don't have to do that for oral exams. (Pause 40 seconds)*
6. **Electronic assistant:** Have you ever cheated in an exam? How?
Student: *I have cheated on an exam. When the teacher was looking in a different direction, I looked at the test of the person sitting next to me to get the answers I wanted. I hadn't studied the night before and I didn't know any of the answers at all. (Pause 40 seconds)*

Electronic assistant: That is the end of the survey. Thank you very much for your cooperation.

Task 36.

12. Besides, I might actually enjoy it.

The United States has long been at the centre of technological advances and its inventors are responsible for shaping the modern world. For example, in the nineteenth-century Thomas Edison invented the phonograph, the light bulb, and the motion picture camera. It is difficult to imagine what the world would be like without the light bulb.

Today, the United States continues to encourage scientific research. One of the most famous research institutions is the Massachusetts Institute of Technology, known as MIT. Over twelve people who have won a Nobel Prize currently do research there. On the west coast of the country there is another institute focusing on technology, Caltech (the California Institute of Technology).

2. **Electronic assistant:** How many hours a week do you watch TV?

Student: *I honestly enjoy watching TV alone. When I watch TV with my family they are always keen on seeing my reaction. I don't like people watching me. (Pause 40 seconds)*
6. **Electronic assistant:** Do you prefer watching TV or reading?
Student: *I prefer reading. Books are so much more enjoyable because they force you to use your imagination and to think. When you watch TV everything is given to you. (Pause 40 seconds)*

Electronic assistant: That is the end of the survey. Thank you very much for your cooperation.

2. My parents surprised me on New Year's with the present and told me that we were all going to Disneyland for our next holiday.

4. **In my opinion,** if someone really cares about you, they will know what to buy you.
5. **Secondly, I think that** if someone gives you a present that you asked for, there is nothing to look forward to.
6. **Besides,** the whole point of a present is that it is a surprise.
7. **Thirdly, I think that** people often give you a present that they think that you need, but that you wouldn't buy for yourself.
8. That is the best present.
9. **Last but not least, I should say that** I prefer giving presents rather than receiving them.
10. **Moreover,** I enjoy the whole experience of looking for a gift for someone.
11. **To my mind,** if I give them the perfect gift, they will know that I truly care about them.

Tired of endless wars and bloody power struggles, the settlers who came to America wanted a political system that would limit the abuse of power by any one individual. That was why the country's founding leaders established a republic which aimed to maintain stability.

The government of the United States was established in March of 1789 with the Constitution of the United States. The document outlined that there would be three branches of government: the executive, the legislative, and the judiciary. Each branch was designed as a balance to the other two. The Constitution has survived the test of time. It has only been changed twenty-six times since 1789. The most well-known changes occurred in 1791 with the Bill of Rights.

Task 35.

Sample answer

Electronic assistant: Hello! It's the electronic assistant of the new pet shop "Fluffy". We kindly ask you to take part in our survey. We need to find out how people feel about keeping pets at home. Please, answer the six questions. The survey is anonymous — you don't have to give your name. So, let's get started.

1. **Electronic assistant:** Have you got a pet?
Student: *I have got a dog and a cat. Both of them are really friendly. (Pause 40 seconds)*
2. **Electronic assistant:** What are the most popular pets in Russia?
Student: *I think that most people really like dogs or cats in Russia. People live in flats, so people usually buy small dogs if they want a dog. There are many parks that people can go with their pets for a walk. (Pause 40 seconds)*
3. **Electronic assistant:** What pets are the most dangerous in your opinion? Why?
Student: *I think that when people have exotic pets, like snakes or spiders, they are very dangerous. They are not tame animals and don't have any loyalty to their owners. If they are hungry enough, they will attack anyone. (Pause 40 seconds)*
4. **Electronic assistant:** What is the best pet to own? Why?
Student: *The best pet to have is a cat. Cats are friendly and can take care of themselves. If you leave your home for the whole day, you don't have to worry about your cat at all. If you have a dog, you always have to return in a few hours to take it for a walk. (Pause 40 seconds)*
5. **Electronic assistant:** What can children learn by having a pet?
Student: *When children have pets they learn to be compassionate and to express love. They worry about their pets and want to make sure that they are healthy and happy. Pets teach children to care about others more than about themselves. (Pause 40 seconds)*
6. **Electronic assistant:** What are the pros and cons of keeping a pet?
Student: *The best thing about a pet is that they are always friendly and kind to you. That means that they can cheer you up when you are sad. The downside to a pet is that you always have to take care of them and you have to find someone to look after them if you go on holiday. (Pause 40 seconds)*

Electronic assistant: That is the end of the survey. Thank you very much for your cooperation.
